TEXAS ORTHOPAEDIC ASSOCIATION
Established 1936

TOA 2026 Annual Conference

The only conference that focuses on orthopaedics in Texas.

April 9-11 | The Woodlands Waterway Marriott

TOA 2026
THE WOODLANDS WATERWAY MARRIOTT
APRIL 9 - 11

Schedule Overview

April 9-11 | The Woodlands Waterway Marriott

Thursday, April 9

5:30 p.m. – 6:30 p.m.
Welcome Reception
Exhibit Foyer

Friday, April 10

7:15 a.m. – 8:00 a.m.
Breakfast | No CME
Oral Non-Opioid Therapy | Waterway 6

8:00 a.m. – 4:30 p.m.
General Sessions + Breakouts
Montgomery | Waterway 6 | Alden Bridge

12:00 p.m. – 3:30 p.m.
Resident Breakout Session
Waterway 6

4:30 p.m. – 5:30 p.m.
Resident Paper Presentations

5:45 p.m. - 7:00 p.m.
Reception + Third-Annual Battle of the Bones
Waterway 7 + 8

Saturday, April 11

7:30 a.m. – 8:00 a.m.
Breakfast | CME Offered
Building a Platform Around Direct Contracting | Montgomery

8:00 a.m. – 11:45 a.m.
General Sessions + Breakouts
Montgomery | Waterway 6

8:00 a.m. – 10:30 a.m.
Medical School Breakout
Alden Bridge

TOA'S 2026 LEADERSHIP CONFERENCE

Title Sponsor

TOA proudly thanks Texas Medical Liability Trust for its continued partnership and commitment to orthopaedic surgeons in Texas.

PRESIDENT'S MESSAGE

Vinod Panchbhavi, MD

Welcome to The Woodlands and to the 2026 Annual Conference of the Texas Orthopaedic Association. The Houston area is home to one of the largest contingents of orthopaedic surgeons anywhere in the world, and there is no better place for us to come together.

But I want to be direct with you: TOA is much more than a two-day meeting. The real work of this organization takes place 365 days a year. It is proactive, strategic, and impactful—and it affects every orthopaedic surgeon in Texas, whether you practice in private practice, in a hospital-employed model, or in academic medicine, as I do.

Through TOA, we have maintained a strong and consistent presence at the Texas Capitol. Over the past year, our leadership and advocacy team have met directly with legislators, testified before committees, and worked in coalition to protect physician-led care. We have engaged meaningfully on prior authorization reform, scope of practice expansion, fair reimbursement policies, and protecting patient access to musculoskeletal care in communities across Texas. These issues directly shape how we practice and how our patients receive care.

If orthopaedic surgeons are not present when decisions are made, others will define musculoskeletal health policy for us. Advocacy is not optional—it is a professional obligation. It directly impacts us and the care we provide for our patients.

TOA is also building the orthopaedic brand in Texas. Every day, patients, legislators, and other health care stakeholders turn to TOA for expertise on musculoskeletal care. You will see that brand-building in action on Friday, when our video team interviews orthopaedic surgeons to tell the story of our specialty in Texas. There is nothing more powerful than video for telling that story.

We are also investing intentionally in the future of our profession. Each year, more than 100 residents and medical students join us at this conference. We have expanded leadership development initiatives, strengthened mentorship opportunities, and created meaningful pathways for young surgeons to become engaged in advocacy and organized medicine.

As you will experience over the next two days, we do things differently at TOA. Our meeting is intentionally focused on orthopaedics in Texas—on the policies, the practice realities, and the people who define our profession in this state. The conversations that occur here, and the relationships strengthened here, have a lasting impact well beyond this weekend.

I want to thank our program chairs, Dr. Christina Brady and Dr. James Saucedo, for creating a thoughtful and distinctly Texas-focused meeting. I also extend my deepest appreciation to Bobby Hillert, the backbone of the TOA, whose steady leadership and unwavering commitment have been indispensable. Simply put, TOA would not be what it is today without him.

As we gather for this meeting, it is especially meaningful to me, as it marks the conclusion of my term as President of the Texas Orthopaedic Association. It has been a true honor to serve and to represent you, and I am deeply grateful for your trust and for the opportunity to work alongside such dedicated leaders and members across our state.

Sincerely,

Vinod Panchbhavi, MD

President, Texas Orthopaedic Association

2025-26

PROGRAM CO-CHAIR MESSAGES

Greetings:

I was first introduced to the Texas Orthopaedic Association as a resident. At the time, I was focused on becoming a technically excellent surgeon and had little interest in policy or advocacy. What I did not yet appreciate was how essential those efforts are to our ability to care for patients.

Physicians have always served as advocates in their communities. Today, as healthcare faces consolidation, shifting reimbursement, and the growing influence of private equity, physician leadership is more important than ever. Our responsibility has not diminished, it has expanded.

The Texas Orthopaedic Association remains one of the strongest advocacy organizations in the country because of surgeons who are willing to lead, not only in the operating room, but in policy, business, and education.

It is an honor to serve and to help bring together some of the best minds in our profession. I hope this meeting challenges and inspires each of us to continue shaping the future of orthopaedics in Texas.

Christina I. Brady, MD | Co-Chair, 2026 TOA Annual Meeting Program Committee

---

On behalf of your Program Committee, I would like to welcome you to this year's TOA Annual Meeting!

Texas orthopedics is remarkable in its diversity. Our state is home to surgeons across every subspecialty, every practice setting, and every stage of career. Employed, private practice, academic — we each carry a distinct perspective, shaped by different challenges and different opportunities. Having had the privilege of practicing in more than one of those worlds, I've come to believe deeply that those perspectives don't have to compete with one another. Rather, they can actually complement each other.

That conviction is at the heart of this year's program. We've assembled faculty from across Texas - subspecialties, practice types, and career stages all represented - because the richest conversations happen when the full breadth of our profession is in the room together. This year's meeting features two dedicated tracks: one focused on clinical updates, the other on practice management. Both are designed to meet you where you are. And by design, they converge because the truth is, so do we. Whatever path brought you to orthopedics in Texas, our fates are tied together. We are one team, with a shared purpose: better care for our patients and our communities.

When Texas orthopedics comes together, something special happens. We're glad you're part of it. Thank you and see you soon!

James Saucedo, MD, MBA | Co-Chair, 2026 TOA Annual Meeting Program Committee

SUPPORT THE FUTURE OF ORTHOPAEDICS IN TEXAS

Texas Orthopaedic Political Action Committee (TOPAC) | Texas Orthopaedic Foundation (TOF)

Dozens of Texas orthopaedic surgeons go one step beyond their TOA membership every year and support TOA's other arms. Together, these organizations are building the future of orthopaedics in two unique ways.

Texas Orthopaedic FOUNDATION

Texas Orthopaedic Foundation

501(c) (3) Foundation

$50K+ invested annually to support 60+ residents

No other state orthopaedic society invests in the future of the profession like TOA. Each year, a significant portion of its budget goes toward bringing residents together at the annual meeting, preparing them for their careers.

By donating to TOF, you're directly supporting the next generation of orthopaedic leaders.

By attending TOA's 2026 Leadership Conference, attendees consent to be photographed, filmed, and/or otherwise recorded by TOA and its authorized representatives. Attendees agree that any or all of the material photographed and/or recorded may be used, in any form, as part of any future websites, publications, brochures, or other printed and/or digital materials used to promote TOA, and further that such use shall be without payment of fees, royalties, special credit, or other compensation.

FRIDAY APRIL 10 *Continued page 8*

Montgomery Ballroom *Waterway 6* *Alden Bridge*

7:15 a.m - 8:00 a.m.
Breakfast **+ Oral Non-Opioid Therapy for Treating Moderate to Severe Acute Pain |** *Vinod Dasa, MD – (CME Not Offered)*

8:00 a.m. - 8:45 a.m.
Trauma | *Patrick Kellam, MD, & Jack Dawson, MD – Co-Chairs*

DME: Emerging Trends and Practice Insights | *Ross DeRogatis & BJ Maack*

8:45 a.m. – 9:30 a.m.

Adult Reconstruction | *Kenneth Mathis, MD, & Dustin Rinehart, MD – Co-Chairs*

Program Faculty: Alisina Shahi, MD, PhD; Robert Frangie, MD; Cory Couch, MD; & Tyler Youngman, MD

The Economics of Youth Sports Medicine | *Henry Ellis, MD, & Bonnie Gregory, MD – Co-Chairs*

Program Faculty: John McDonald, MD; Paul Shupe, MD; Robert Maniscalco & Chad Gilliland

9:30 a.m. – 10:00 a.m. ***Exhibit Break***

10:00 a.m. – 10:45 a.m.
Challenging Cases in Sports Medicine | *Henry Ellis, MD, & Bonnie Gregory, MD – Co-Chairs*

Panel Faculty: Scott McKay, MD; David Mansfield, MD; Adam Hines, MD; B. Christian Balldin, MD; AJ Johnson, MD; & John Roaten, MD

The Therapy Performance Playbook: Benchmarks, Scheduling & Billing for Results | *Joseph Mathews & Derek Lund*

10:45 a.m. – 11:30 a.m.
Shoulder & Elbow | *Matthew Glazier, DO, & Trevor Simcox, MD - Co-Chairs*

Panel Faculty: James Gregory, MD; Robert Fullick, MD; Matthew Glazier, MD; John Conway, MD; & Andrew Choo, MD

Why Out-Of-Network Options Matter to All Physicians | *Adam Bruggeman, MD*

11:30 a.m. - 12:00 p.m.
Lunch + TOA Business Meeting | *Business Meeting 11:45 a.m. | Vinod Panchbhavi, MD - TOA President*

12:00 p.m. - 12:45 p.m.
From Clinic to OR: Practical AI Tools for Orthopaedic Surgeons | *Joseph Drain, MD, & James Showery, MD*

12:45 p.m. - 1:30 p.m.
AI Data Use for Practice Performance | *Rachel Uzlik*

1:30 p.m. - 2:00 p.m.
Where Medicine Meets Policy: The Legislature's Impact on Every Surgeon
Rep. Ann Johnson & Rep. Tom Oliverson, MD | Moderated by Christina Brady, MD, & James Saucedo, MD

2:00 p.m. - 2:30 p.m. ***Exhibit Break***

2:30 p.m. - 3:30 p.m.
You Know Your Purpose. Now Know Your Value. | *Jason Adams*

FRIDAY APRIL 10 *Continued*

General Session

Montgomery Ballroom | *Waterway 6*

3:30 p.m. - 4:30 p.m.
Punching Past Your Mark: How Can We Positively Impact Our Communities? | *Every day, orthopaedic surgeons change lives in clinics and the OR. This session will take a look at a few who are reaching far beyond it — mentoring the next generation, reshaping policy, advancing research and strengthening communities.*

Christina Brady, MD, & James Saucedo, MD – Moderators | Adam Bruggeman, MD; Henry Ellis, MD; AJ Johnson, MD; Matthew Koepplinger, DO; & Boris Zelle, MD

4:30 p.m. - 5:30 p.m.
Resident Paper Presentations | *See page 9*

5:45 p.m. - 7:00 p.m.
Reception & Third-Annual Battle of the Bones **|** *Waterway 7 + 8*

SATURDAY APRIL 11

General Session

Montgomery Ballroom | *Waterway 6*

7:30 a.m - 8:00 a.m.
Breakfast **+ Building a Platform Around Direct Contracting |** *Ryan Wells*

8:00 a.m. - 8:45 a.m.
Better Hand Care & Stronger Communities Start Here | *Presented by the Texas Hand Society*

Matthew Koepplinger, DO – Chair

Program Faculty: Jason Coffman, MD; Joanne Zhou, MD; & Brian Sager, MD

Physician Investing | *Jason Adams*

8:45 a.m. - 9:10 a.m. ***Exhibit Break***

9:10 a.m. - 10:00 a.m.

Spine | *Michael Briseno, MD, & James Showery, MD - Co-Chairs*

The New Era of Sports Liability for Team Physicians | *Jason Adams*

10:00 a.m. – 10:45 a.m.
Foot & Ankle | *William McGarvey, MD, & Kevin Varner, MD - Co-Chairs*

Program Faculty: Stephanie Gardner, MD; Travis Hanson, MD; Michael Greaser, MD; & Taggart Gauvain, MD

What's New in Pediatric Orthopaedics | *Bryce Bell, MD, & Lindsay Crawford, MD | Co-Chairs*

Program Faculty: Jessica Traver, MD, & Margaret Baldwin, MD

10:45 a.m. - 11:45 a.m.
New Changes in Federal Reimbursement for Hospital-Based Surgeons | *Adam Bruggeman, MD*

SCIENTIFIC PRESENTATIONS

Friday, April 10 | Montgomery Ballroom | 4:30 – 5:30 PM

01	**Youssef Khalafallah, MD** *Artificial Authors? Use and Ethical Perceptions of Large Language Models in Orthopedic Letters of Recommendation*
02	**Luke Mascarenhas, MD** *Factors Affecting Community Penetration and Patient Access to Robotic Total Knee Arthroplasty: An AJRR Retrospective Analysis*
03	**Manuela Gaviria, MD** *Accuracy of Dorsal Tangential Views for Predicting Distal Radius Dorsal Screw Penetration*
04	**Benjamin Fiedler, MD** *Impact of Space Flight on Astronaut Bone Mineral Density Recovery and Fragility Fracture Risk*
05	**Alexander Abraham, MD** *Investigating Postoperative Infections in Diabetic Ankle Fracture Patients on GLP-1 Agonists: A Single-Center Cohort Study*
06	**Ruthvik Allala, MD** *Return to Sport After Acromioclavicular Injury: A Systematic Review of Modifiable Factors*
07	**Mariah Arave, MD** Articular Cartilage and Extensor Mechanism Injury Patterns in Percutaneous Screw Fixation of the Middle Phalanxs
08	**Tyler Williamson, DO** Perioperative Mortality Risk Has Improved Following Total Hip Arthroplasty for Intracapsular Hip Fractures
09	**Semran Thamer, MD** *The Environmental Impact of Total Hip and Knee Arthroplasty: A Systematic Review and Meta-Analysis*
10	**Mauricio Valdez, MD** *Augmentation of Anterior Cruciate Ligament Reconstruction with Lateral Extra-Articular Augmentation Procedure Reduces Graft Failure and Reoperation Rate in Adolescent Patients: A Systematic Review and Meta-Analysis*

2026 RESIDENT PROGRAM
Texas Orthopaedic Association

PRESENTED BY:

SCOTTISH RITE FOR CHILDREN

RESIDENT BREAKOUT SESSION SCHEDULE

Resident Program Chair: Surya N. Mundluru, MD, MBA

FRIDAY, APRIL 10 | *Montgomery Ballroom* *Waterway 6*

12:00 p.m. – 12:10 p.m.
Welcome & Overview | *Surya N. Mundluru, MD, MBA*
Topics:
- *Why business knowledge matters in orthopedics.*
- *Career decisions that shape the first 10 years.*
- *Overview of the afternoon roadmap.*

12:10 p.m. – 12:25 p.m.
How to Get into Fellowship | *Cody Tillinghast, MD*
Topics:
- *When to start preparing.*
- *Research strategy.*
- *Matching strategy.*
- *Letters of recommendation.*
- *Interview preparation.*

12:25 p.m. – 12:55 p.m.
Looking for Your First Job & Understanding Contracts | *Alicia Voltmer, JD, & Surya N. Mundluru, MD, MBA*
Topics:
- *Types of orthopedic jobs.*
- *Private practice.*
- *Hospital employed.*
- *Academic.*
- *Private equity groups.*
- *Understanding compensation models.*
- *Salary vs RVU vs collections.*
- *Key contract terms.*
- *Non-compete.*
- *Call expectations.*
- *Partnership track.*
- *Malpractice coverage.*
- *When to involve a lawyer.*

12:55 p.m. – 1:10 p.m.
Getting Started: Community Practice Edition | *Candice Teunis, MD*
Topics:
- *Building referral networks.*
- *Working with hospital administration.*
- *First year productivity expectations.*
- *Managing clinic efficiency.*

1:10 p.m. – 1:25 p.m.
Getting Started: Academic Edition | *Brennan Roper, MD*
Special Considerations:
- *Balancing clinical work with research.*
- *Case ownership and trainee autonomy.*
- *Promotion pathways.*
- *Building your academic portfolio.*
- *Teaching residents effectively.*
- *Developing a research niche.*

1:25 p.m. – 1:40 p.m.
Improving Access to Care | *Matt Koepplinger, DO*
Topics:
- *Rural orthopedics.*
- *Community outreach.*
- *Telehealth expansion.*
- *Building sustainable access models.*

1:40 p.m. – 2:10 p.m.
Leveraging Technology & AI in Orthopedic Practice | *Surya N. Mundluru, MD, MBA*
Special Considerations:
- *AI in documentation and coding.*
- *Workflow optimization.*
- *Clinical decision support.*
- *Opportunities for innovation.*
- *Surgical planning tools.*

2:10 p.m. – 2:25 p.m.
Open Panel Discussion & Q&A | *All Speakers*
Suggested Prompts:
- *Biggest mistake new surgeons make.*
- *How to evaluate job offers.*
- *Private practice vs academic satisfaction.*
- *Financial mistakes early in career.*

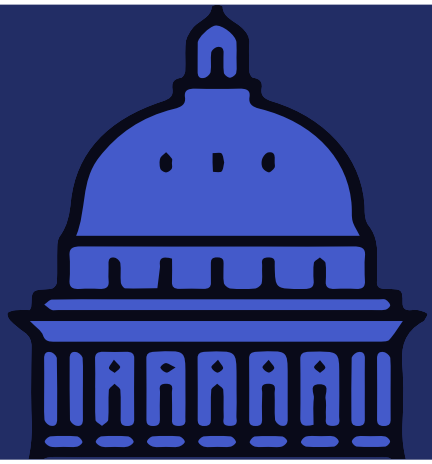
2:30 p.m. – 3:30 p.m. | Keynote Session (General Session)
You Know Your Purpose, Now Know Your Value | *Jason Adams*

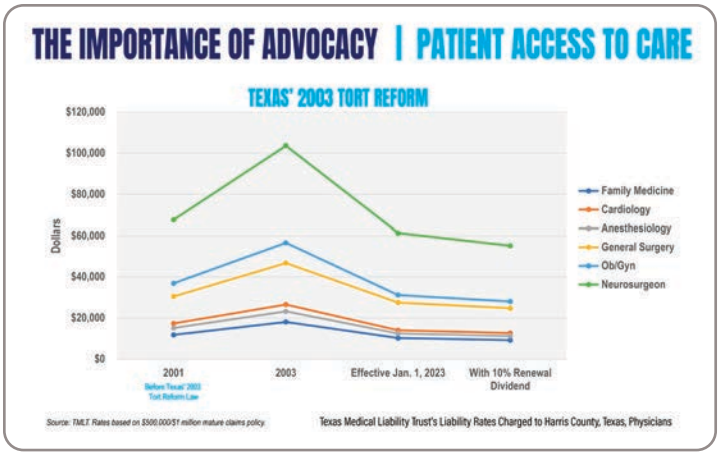
ADVOCACY:

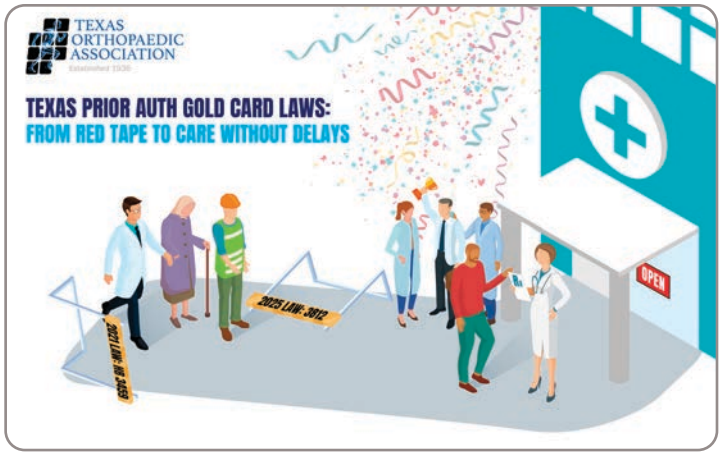
Orthopaedic Surgeons Have No Choice But to Engage in the Public Policy Process

Orthopaedic surgeons around the nation point to Texas as the ideal practice environment for musculoskeletal care. Much of that credit goes to the countless orthopaedic surgeons who have dedicated their time and expertise to advocating on behalf of their patients and their profession. And much of TOA's advocacy success involves solving problems before you even notice them.

Whether we like it or not, orthopaedic surgeons have no choice but to engage in the public policy process. If we stay on the sidelines, other segments of the health care industry will define musculoskeletal issues on their own terms, and we won't like the results.







CME INFORMATION

Description: This meeting is designed to identify areas of recent research in orthopaedics relevant to surgeons and advanced practice providers. This information will be transmitted through scientific paper presentations, question and answer sessions, presentations on surgical techniques and current concepts and symposiums.

Statement of Need: A need for this educational activity has been determined based on focus groups consisting of orthopaedic surgeons.

Target Audience: Orthopaedic surgeons and other clinicians with interest in musculoskeletal care.

Educational Method: Lecture presentations, case studies, and symposiums.

Accreditation Statement: The Texas Orthopaedic Association is accredited by the Texas Medical Association to provide continuing medical education for physicians.

The Texas Orthopaedic Association designates this live activity for a maximum of *13.25 AMA PRA Category 1 Credit(s)*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Saturday's presentation, "New Changes in Federal Reimbursement for Hospital-Based Surgeons," has been designated by the Texas Orthopaedic Association for 1.0 credit(s) of education in medical ethics and/or professional responsibility.

Possible CME Per Attendee	
Friday:	9.5
Saturday:	3.75
Total General Session:	13.25

Global Learning Objectives: Upon completion of this meeting, learners should be able to:

- Examine and apply basic scientific information and technical skills in orthopaedic surgery.
- Update knowledge regarding state-of-the-art advances in orthopaedic surgical treatment
- Evaluate the current evidence base for diagnosis and clinical management of orthopaedic injuries, conditions and disorders.
- Review their current practice management expertise and develop a plan to increase their expertise.
- Develop new clinical and technical skills to improve the everyday practice of orthopaedic surgery.

Mitigation Statement: All relevant financial relationships were mitigated by the program committee prior to the activity.

The intent of this disclosure is to allow the Texas Orthopaedic Association (TOA) the opportunity to mitigate any relevant financial relationships to assure balance, independence, objectivity and scientific rigor in all of its CME activities. All faculty and planners of TOA-sponsored activities are expected to disclose to TOA all financial relationships with any ineligible company. An indication of the participant's disclosure appears after his or her name as does the commercial company or institution that provided the support. TOA does not view the existence of these disclosed interests or commitments as necessarily implying bias or decreasing the value of the author's participation at the meeting.

Financial Disclosures: An indication of the participant's disclosure appears after his or her name as does the ineligible company or institution that provided the support. The Texas Orthopaedic Association (TOA) does not view the existence of these disclosed interests or commitments as necessarily implying bias or decreasing the value of the author's participation at the meeting.

CME INFORMATION

Ineligible company: any entity whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients.

Examples of financial relationships:

- Employee
- Researcher
- Consultant
- Advisor
- Speaker
- Independent Contractor (Including Contracted Research)
- Royalties or Patent Beneficiary
- Executive Role
- Ownership Interest

Individual stocks and stock options should be disclosed; diversified mutual funds do not need to be disclosed. Research funding from ineligible companies should be disclosed by the principal or named investigator even if that individual's institution receives the research grant and manages the funds.

View the Financial Disclosures: Visit TOA's website to view all financial disclosures.

Disclaimer: The material presented at the Annual Meeting has been made available by TOA for educational purposes only. This material is not intended to represent the only, nor necessarily best, method or procedure appropriate for the medical situations discussed, but rather is intended to present an approach, view, statement, or opinion of the faculty which may be helpful to others who face similar situations.

TOA disclaims any and all liability for injury or other damages resulting to any individual attending a session and for any and all claims which may arise out of the use of the techniques demonstrated therein by such individuals, whether these claims shall be asserted by a physician, an entity or any other person.

FDA Statement: Some drugs or medical devices demonstrated at the Annual Meeting have been cleared by the FDA for specific purposes only or have not been cleared by the FDA. The FDA has stated that it is the responsibility of the physician to determine the FDA clearance status of each drug or medical device he or she wishes to use in clinical practice. Texas Orthopaedic Association (TOA) policy provides that "off label" uses of a drug or medical device may be described in TOA's CME activities so long as the "off label" use of the drug or medical device is also specifically disclosed (it must be disclosed that the FDA has not cleared the drug or device for the described purpose). Any drug or medical device is being used "off label" if the described use is not set forth on the product's current label.

Program Committee: The program committee for the Texas Orthopaedic Association was in charge of planning and approving the event.

Texas Orthopaedic Association Program Committee

- Vinod Panchbhavi, MD - TOA President, 2025-26
